Sophia is one of the kindergartners here at St. Philip the Apostle and she has been diagnosed with Severe Aplastic Anemia. This is a disease in which the bone marrow fails to produce enough blood cells for her body. She is in need of a bone marrow transplant but has yet to find a perfect match. She is currently in the hospital trying an alternative drug treatment therapy. She will be out of school for the next few weeks recovering. She needs all of our prayers to help her through this very difficult process.

In addition, our Kindergartners want to do something to help their young friend, and they decided to sell potato chips on Wednesday, February 11th & Wednesday, February 18th during lunch to raise money and awareness for Sophia's plight. Please join us in support of this beautiful little girl.

Each bag will be a $1 donation (or however much you can give), and the money will go directly to Sophia's family to help pay for some of her immediate needs. Please be as generous as you can with your donations and with your prayers.

With Love,
The Kindergarten Class
